### Profile Summary

- A forward-thinking developer offering 4 years of experience building, integrating, testing, and supporting Android applications for mobile and tablet devices on the Android platform.
- Experienced with Android Studio & Eclipse.
- Most of my projects oriented on mobile and tablets.
- Created 15+ fully functional applications for Android devices.
- Known for writing efficient, maintainable and reusable code.
- Proficient in design, data structures, problem-solving, and debugging.
- Expert in the interaction between various devices and versions of Android.

### Education

- BS (Software Engineering) University of Gujrat
- FSC (Pre-Engineering) B.I.S.E FSD
- Matric (Pre-Science) B.I.S.E FSD

### Technical Skills

- Tools and Technologies: Android Studio, Eclipse, Adobe Photoshop, Gitlab VCS, Microsoft Office, IntelliJ, Sublime Text
- Android Skills: Retrofit, Volley, Rx java, Coroutine, Firebase, Google maps, MVVM, Dagger2, Room Database, Live Data, Sugar ORM, Push Notification
- Languages: Core Java, Kotlin, Xml, Html, CSS, C++, PHP, Dart
- Database: SQLite, MySQL, SQL Server
- SDLC Model: Agile Model, Scrum Model, Jira Board, Gitlab Board, Rapid Programming

### Achievements

- In-depth publishing experience of Android apps in the app store.
- Capable of trouble shooting and code enhancements.
- Experience with Android SDK
- Experience working with remote data via REST and JSON
- Experience with third-party libraries and APIs
- Working knowledge of the general mobile landscape, architectures, trends, and emerging technologies Solid understanding of the full mobile development life cycle.
- Experience with Material designing
- Debugging for Finding Bug and optimize code

## Experience Summary

Duration: July 2020 - Till Date

Organization: Punjab Information Technology Board (Lahore)

Description: As Android Developer, I have worked on different government projects from scratch to maintaining different already built projects.

Role: Android Developer

- Experience with Java IDEs (e.g., Android Studio), profilers, debuggers, revision control systems (e.g., GIT) and bug tracking (e.g., Jira)
- Experience developing applications on Android
- Member of a team of 15 Android Engineers charged with improving the technical foundation, user experience
- App(s) published on the Play Store demonstrating a strong product focus and an eye for design
- Demonstrated interest in working with smaller startups and/or on smaller teams
- Solid understanding of mobile development lifecycle, specific technologies and submission guidelines and processes
- Previous experiences on different development fields (Backend or Java, Kotlin)
- Enterprise software development experience

Duration: February 2019 – June 2020

Organization: Uptogenics International (Lahore)

Project: Phone check

Role: Android Developer

- Restful API integration using Retrofit2 and Rx Java
- Collaborate with cross-functional teams to define, design, and ship new features.
- Work with outside data sources and APIs
- Unit-test code for robustness, including edge cases, usability, and general reliability.
- Work on bug fixing and improving application performance.
- Continuously discover, evaluate, and implement new technologies to maximize development efficiency
- Handling various technical aspects like coding of modules using given design specifications, debugging and fixing the defects as well as analytic root cause

Duration: September 2017 – February 2019

Organization: Invokins Soft Solution (Faisalabad)

Role: Android Developer

- Design and build advanced applications for the Android platform.
- Collaborate with cross-functional teams to define, design, and ship new features.
- Work with outside data sources and APIs
- Work on bug fixing and improving application performance

Duration: February 2017 – August 2017

Organization: Masood Textile Mills (Faisalabad)

Role: Computer Operator

- Experienced in working with Oracle Forms, Bi Publisher, Report Builder
- Scan Barcodes and enter data in management system of MTM
- Track the job timing of employee check in and out time of employee
- Reports generation using MTM management system
