Akif Dadan– Project Manager

Having 10 years of Experience in the field of Software Developer role & Project Lead role.

www.kenz-innovations.com   info@kenz-innovations.com   18008890966

Profile Summary

- A results-driven Full Stack Java Developer with demonstrated success in the design, deployment and maintenance of web-based applications.
- More than 10 years of experience with multiple assignments spanning complete life cycle of Software development processes including requirements definition, coding, testing, implementation and support.
- Masters in Technology, Software Engineering from BITS Pilani University (CGPA: 6.25).
- Experienced in facing customer, at the multiple customer location (Vienna: Austria, Johannesburg: South Africa, Riyadh (Saudi Arabia)
- History of dedicated efforts towards improved functionality and productivity, consistently meeting critical requirements.
- Proven ability to lead and motivate teams. Experienced in leading and managing the delivery of system/software development projects in a structured environment.

Education

- Master's in Technology BITS Pilani University. Software Engineering
- Bachelors of Science Wilson College University of Mumbai Computer Science
- HSC Maharashtra College of Secondary and Higher Secondary Education Science
- SSC Rosary High School, MSB of Secondary and Higher Secondary Education

Technology

- Programming Languages: Java / J2EE, SQL.
- Frameworks: Spring, Spring MVC, Hibernate, NodeJS.
- Web Services: SOAP, REST.
- User Interface: HTML, CSS, Bootstrap, AngularJS, Angular 6, JQuery, JavaScript.
- IDE's: Eclipse, SQL Developer, Spring Tool Suite, IntelliJ.
- Versioning: Team Foundation Server, Apache Subversion (svn), GIT.
- Others: Putty, WinSCP, JUnit, Maven, Tomcat, Velocity Templates.

Certificates

- Project Management Professional (PMP)
- Genesis Cloud Certified Associate

💼 Experience Summary

Duration: Oct 2019 - Till Date
Project: Multiple Assignments with different clients
Organization: Baud Telecom Company
Role: Senior System Developer

➢ Preparing Functional and Technical specification documents and hence bridging the gap between different parties.
➢ Day to day client interactions, frequent reviews on offshore deliverables, issues escalation and resolution, status review meetings.
➢ Perform activities like Development, support, maintenance and implementation of small to medium complex components of a project module.
➢ NodeJS, JQuery, JavaScript (Project 1) Core Java, Spring, Hibernate, Genesis Composer (Project 2) Core Java, Spring, Hibernate, Cisco Call Studio (Project 3)

Duration: May 2018 – Sep 2019
Project: KeyHie Upgrade
Organization: CitiusTech
Role: Technical Lead

➢ Preparing Functional and Technical specification documents and hence bridging the gap between different parties.
➢ Act as a liaison between the technical and business teams to perform analysis work for the project.
➢ Successfully migrated existing User Interface from Angular 1 to Angular 4
➢ Identify, understand and plan for organizational and human impacts of planned systems, and ensure that new technical requirements are properly integrated with existing processes and skill sets.
➢ Interact with internal users and customers to learn and document requirements that are then used to produce business requirements documents.
➢ Build effective networks across business areas, developing relationships based on mutual trust and encouraging others to do the same.
➢ Interact with designers to understand software limitations.
➢ Responsible for designing components and providing that information to the developer.
➢ Requirement Gathering, Corporate Communications, Microsoft Visio, Core Java, Spring, Hibernate, AngularJS, Angular 4.

Duration: Jan 2018 – Apr 2018
Organization: Barclays Africa Group Limited (L&T InfoTech)
Project: Valpre
Role: Project Lead

➢ Preparing Functional and Technical specification documents and hence bridging the gap between different parties.
➢ Act as a liaison between the technical and business teams to perform analysis work for the project.

- Identify, understand and plan for organizational and human impacts of planned systems, and ensure that new technical requirements are properly integrated with existing processes and skill sets.
- Interact with internal users and customers to learn and document requirements that are then used to produce business requirements documents.
- Build effective networks across business areas, developing relationships based on mutual trust and encouraging others to do the same.
- Interact with designers to understand software limitations.
- Responsible for designing components and providing that information to the developer.
- Requirement Gathering, Corporate Communications, Microsoft Visio, Core Java, Spring, Hibernate.

Duration: Jan 2017 – Dec 2017
Organization: Reliant Energy, USA (L&T InfoTech)
Role: Project Lead

- Preparing Functional and Technical specification documents and hence bridging the gap between different parties.
- Day to day client interactions, frequent reviews on offshore deliverables, issues escalation and resolution, status review meetings.
- Perform activities like Development, support, maintenance and implementation of small to medium non-complex components of a project module.
- Core Java, Spring, Hibernate, JUnit, Eclipse, Tomcat Server, Apache SVN.

Duration: June-2014 – Jan-2017
Project: A1- CRM
Organization: A1 Telekom, Austria (Wipro)
Role: Developer (L3)

- SPOC for Transition of the Existing System from Vendor to Wipro.
- Onsite coordinator in Vienna.
- Updating and maintaining technical documentation for system maintenance (System Maintenance Technical Document or SMTD) that is created during the transfer phase.
- FP Counting of the project.
- Preparing Functional and Technical specification documents and hence bridging the gap between different parties.
- Day to day client interactions, frequent reviews on offshore deliverables, issues escalation and resolution, status review meetings.
- Lead the team of 3 people to implement the required changes in the application.
- Requirements Gathering, Functional Design, Core Java, Spring, Spring MVC, Hibernate, JUnit, Eclipse, Tomcat Server, Maven, Unix, Apache SVN.

Duration: Jan-2012 – June 2014
Project: SFR AD_BA01
Organization: Société française de radiotéléphone (SFR), France
Role: Developer (L2)

- Application Study and Project Scoping

- Work on problems of limited scope, through usage of standard programming concepts and principles
- Perform activities like Development, support, maintenance and implementation of small to medium non-complex components of a project module.
- Guide team development efforts towards successful project delivery
- Provide technical leadership to teammates through coaching and mentorship
- Maintain high standards of software quality within the team by establishing good practices and habits
- Participate in peer-reviews of solution designs and related code
- Design, develop, and unit test applications in accordance with established standards.
- Core Java, Spring, Spring MVC, Hibernate, Eclipse, PL-SQL, SQL Developer, Putty, Apache SVN.

Duration: Oct-2010 – Dec 2012
Organization: Charles Schwab, United States
Role: Unix Admin (L1)

- Package and support deployment of releases using WebSphere.
- Develop, refine, tune and automate integrations between applications
- Finding the root cause and Troubleshooting errors which cause hindrance to the smooth functioning of the applications.
- Maintaining the Distributed Environment to a stable state
- Core Java, Unix, SQL, Coccoon, WinSCP, Putty, Team Foundation Server, IBM WebSphere.
